## DETAILED ACTION

### Remarks

1. In response to communications files on February 24, 2006. Therefore, claims 1-19 are presently pending in the application.

### *Reasons for Allowance*

2. Claims 1-19 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter: the prior arts of records, neither anticipates nor renders obvious the following limitations as claimed:

As to claim 1, the prior art of records fail to anticipate or suggest a system for configuring handheld devices, comprising:

- a website engine, for receiving user input;
- a build-to-order configuration engine for communicating with developers, coordinating software licensing, arranging software downloads and preventing conflicts;
- a database engine, for managing executable code and data responsive to said configuration engine, and
- a loading station for performing the actual downloads;

wherein said loading station loads said handheld device based on user input received through said website engine and conveyed to said data base and build-to-order configuration engines, together with the other limitations of the independent claims.

As to claim 19, the prior art of records fail to anticipate or suggest a method of loading software onto a handheld device, comprising:

querying a build-to-order configuration engine to ensure sufficient memory is available to accommodate said software, that the desired software has no conflicts with any other software desired by said user, and that the handheld device O/S (Operating System) can accommodate said software;

querying said handheld device to ensure sufficient memory is available, and reporting an error back to said user if necessary;

if necessary, prompting a user to order additional memory such as on a memory card; and locating said software program on said memory card where possible, together with the other limitations of the independent claims.
